SUMMARY

Results-driven Software Developer with nearly one year of hands-on experience in designing, developing, and optimizing scalable web applications. Proficient in modern technologies with strong problem-solving skills and a passion for building efficient, reliable, and user-focused software solutions. Seeking an opportunity to contribute technical expertise and grow within a dynamic development team.

OBJECTIVE

To obtain a Full Stack Developer position where I can leverage my 1 year 4 months of overall experience, including 8 months of professional experience at X-Pecto IT Solutions Pvt. Ltd., Noida, to build efficient, scalable, and user-centric web applications. I aim to contribute to organizational success while continuously enhancing my technical expertise and professional growth.

SKILLS

- React.js and Next.js for front-end and user interface development; Node.js and Express.js for backend development.
- Proficient in C, C++ (STL), and JavaScript as programming languages.
- Strong understanding of Data Structures & Algorithms and Object-Oriented Programming (OOPs).
- MongoDB for efficient and reliable data management.
- Strapi for content management and API integration.
- Familiar with GitHub, VS Code, Cloudinary, Tailwind CSS, Redis (Beginner), Docker (Beginner).

PROFESSIONAL EXPERIENCE

- **Full Stack Developer, X-Pecto IT Solutions Pvt. Ltd., Noida**
July 2025 – Present
 - Developing a Next.js and Node.js based web application that enables users to share and engage with business ideas, integrating real-time features such as likes, dislikes, and comments using Socket.io.
 - Designed and implemented scalable backend APIs to support efficient data flow and real-time communication.
 - Contributed to the admin panel and backend of the Pikeazy mobile application, enabling grocery price comparison across major platforms like Amazon, Flipkart, and Swiggy to help customers find the best deals.
 - Collaborated with cross-functional teams to improve performance, ensure seamless data integration, and enhance overall user experience.
- **Front End Developer, X-Strategy Services LLP, Noida**
Feb 2025 – May 2025
 - Gained hands-on experience in front-end development by converting existing React.js web applications into Next.js to enhance performance and SEO optimization.
 - Contributed to the development of an e-commerce web application for a London-based client in the beauty products domain, using Next.js for the frontend and Strapi as the backend CMS.
 - Collaborated with the development team to improve UI/UX designing, ensure responsive layouts, and integrate APIs for dynamic content management.
- **Full Stack Developer Trainee, Smart Brains Engineers & Technologist Pvt. Ltd.**
Sep 2024 – Dec 2024
 - Worked as a MERN Stack Developer Trainee, developing and maintaining core LMS features using MongoDB, Express.js, React.js, and Node.js, including user authentication, course management, and role-based access control.
 - Implemented interactive LMS modules such as course enrollment, video content handling, progress tracking, and admin dashboards, while integrating REST APIs and ensuring responsive UI and optimized backend performance.

- **Machine Learning Inten, IIT-BHU, Varanasi, Uttar Pradesh**
July 2023 – Aug 2023

- Applied machine learning algorithms to analyze the CEAP-360 VR dataset, achieving 90% accuracy in classifying and distinguishing between various emotional states.
- Perform electrodermal signal processing and feature extraction to enhance data quality and improve model performance.

PROJECTS

- **Bug Tracker (MERN)**

- Developed a full-stack Bug Tracker in Xpecto where project managers can assign projects to developers and testers, while testers can report and assign bugs to developers, ensuring clear accountability and workflow management.
- Implemented real-time tracking of bug status, including assignment, completion, and overdue timelines, allowing teams to monitor progress and prioritize critical issues efficiently.

- **Checkuridea (MERN)**

[Link](#)

- Developed a full-stack platform Checkuridea where users can post ideas based on categories selected during sign-up, enabling organized content sharing and community engagement.
- Implemented interactive features such as like, dislike, and report on posts, allowing users to engage with content and maintain quality by flagging inappropriate ideas.

- **Hotel Booking (MERN, Firebase, cloudinary)**

[Link](#)

- Developed a full-stack hotel booking platform enabling hotel owners to add, edit, and manage listings, while customers can seamlessly search and book hotels.
- Integrated Cloudinary for secure image uploads and Firebase Authentication for safe and reliable user login and registration.

- **ERP Based Hotel Management Platform**

[s](#)

- Developing a centralized system to manage hotel operations such as reservations, billing, room allocation, and staff management efficiently.
- Leveraged Implementing role-based access control, real-time data handling, and scalable architecture to enhance operational efficiency and reporting accuracy.

- **Spotify Web App (MERN)**

[Link](#)

- Developed a Spotify-inspired web app using React.js and Node.js with music streaming, playlist browsing, and search functionality.
- Created an admin panel for managing songs, artists, and metadata through secure CRUD operations.

- **Real Estate (MERN)**

[Link](#)

- Developed a responsive real estate web app for property seekers and agents using MongoDB and RESTful APIs for backend communication.
- Implemented advanced search and filtering to enhance user experience and data accessibility.

EDUCATION

- B. Tech (Electronics and Communication Engineering) Dec 2020 – June
2024 Bundelkhand University, Jhansi, UP 8 CGPA
- Senior Secondary Education (XII) July 2017 – June
2019 Sri Dasmesh School Fauji Colony US Nagar, UK 70.2 %
- Higher Secondary Education (X) Jul 2015 – June
2017 St Mary's Secondary School, Bilaspur, Rampur, UP 9.8 CGPA

ACHIEVEMENTS

Solved 100+ DSA problems on Leet Code, Code Chef and various platforms.
